

## **Notice to the public:**

QPR is a specific, tested, researched, proprietary, copyrighted, trademarked suicide prevention gatekeeper training program. Unlicensed use of the QPR program is prohibited by law and violators are subject to a minimum fine of \$100,000 dollars.

To assure the public's safety, please be advised of the following requirements for QPR gatekeeper training:

- QPR training is delivered only by actively certified QPR Instructors (listed on our web site by state), or over the internet from the QPR Institute.
- QPR training requires at least one hour of participant time, and a role-play practice session is strongly advised.
- The core content slide presentation and video content are provided only to licensed QPR instructors. If any QPR Power Point™ slides are presented in other suicide prevention training programs they have misappropriated and represent a copyright violation.
- QPR training is always followed by a substantial question & answer period.
- QPR training follows strict content delivery and interaction protocols.
- All participants (or one set per family) receive the official QPR booklet and card in face-to-face training. Online learners may print the booklet and card.
- A post-training quiz, certificate and role-play experience are currently optional but recommended. Online QPR training requires passing this quiz to print the certificate.

***Please note:*** QPR taught in less than one hour, unaccompanied by a hard-copy QPR booklet and card, or taught by a non-licensed person is NOT the official QPR Gatekeeper Training for Suicide training program. Please contact the QPR Institute if you have questions or concerns [email us](#) or call 1-888-726-7926
